

Just to let you know work is now underway in clearing the legally reclaimed and now enforced-vacant pen. Sadly 5 more deceased hens were found in the unkempt 3-4ft high weeds and the chicken shed was disgustingly 2ft deep in manure which the hens were previously roosting on.

The former tenant's son has left a lot of very EXPENSIVE but necessary clear-up which, by rights, he should pay for/ have personally cleared... rather than force Briercliffe residents (through their taxes) to do so on his behalf... Absolutely terrible and shameful situation!
